Style: CSS3, Flex Box, Css Grid, SASS, BEM Architecture, CSS-in-JS, Styled Components, Emotion.

Professional experience

Nimble - Frontend Developer

(November 2021 - December 2022)

- Built new React web version for ResortPass, an ecommerce that offers day access to luxury hotel amenities (<https://www.resortpass.com>).
- Worked on the web CRM and workflow collaboration tool Alltum (<https://alltum.io>).

Arzion - Frontend Developer

(November 2020 - November 2021)

Frontend Developer for Kognitiv's multilingual hotel booking tool (<https://kognitiv.com/hoteltechnology>).

The solution supports extensive marketing features such as promotions, offers, vouchers, price alerts, and corporate branding, under an optimized usability and conversion focused UX.

Globant - Web UI Developer

(January 2019 - November 2020)

Within Telecom's digital transformation project, built the web version of “Mi Personal” where users can manage all their products, buy new ones, and view segmented cross-sell offers.

Freelance React Developer

(May 2018 - December 2018)

Developed progressive web apps and landing pages using React.js, Redux, and Material UI.

Former experience

- 5 years as Product Analyst and Product Manager in LA Nación media group (Club LA Nación, Dridco and BonVivir).
- 4 years of entrepreneurial experience as a cofounder of a startup. Obtained financing from Argentine Technological Fund (FONTAR) for developing a mobile web portal for events and conferences (<https://www.guivent.com>).
- 2 years as Game Analyst in Vostu. Vostu was the largest social games developer in Latin America in the early 2010s with more than 20 million active users at its peak.

Languages

English (advanced - First Certificate level), Spanish (native).

Hobbies

Rock climber. Amateur sommelier. Improvised botanist. Crypto enthusiast.

Fan of endless talks on theoretical physics and consciousness.
